

DIDSBURY PIONEER

Vol. XX

WEDNESDAY, JANUARY 17, 1923.

No. 2

BORN:—At the Didsbury General Hospital, on Sunday, January 7th, 1923, to Mr. and Mrs. George Lunt, a son.

CARD OF THANKS

We wish to take this means of expressing our thanks to the kind friends and neighbors for their sympathy and assistance during our recent sickness and bereavement.

Mr. and Mrs. E. Sherrick and family.

NOTICE

As I have taken over the North End Livery Barn from Mr. Cook, I would solicit the patronage of the farmers when they are in town. Try me out. Doc. Steiss.

NOTICE

Public notice is hereby given that a meeting of the electors of the Town of Didsbury will be held in the public school basement on Friday, 26th day of January, 1923, at 8 p.m. for the purpose of receiving the reports of the chairmen of the various committees of the Council.

Dated at Didsbury, this 17th day of January, 1923.

W. A. AUSTIN, Secy.-Treas
2c2

Why are birds melancholy in the morning?

Because their bills are all over due.

The Crossfield Midgets will clash with the Didsbury Midgets in a game of hockey at the rink on Saturday afternoon. Come and see a real game.

Town Elections

Election time again draws near and we find that there are several vacancies which have to be filled, there are needed, four Councilors, three School Trustees and a Mayor. Therefore it behoves each good man to come to the aid of his town as it were, and push a little. As a little poem said about the man flicking about his town: "It isn't your town, it's won't." So how about agitating a little for the men you think should fill these vacancies. There are some that we hope will be returned, as town legislation during the past term has been fairly satisfactory. In Mayor H. W. Chambers, we have a man who has filled his position in a very capable manner and it is to be hoped that he can be induced to continue his term of office.

A ratepayers meeting will be held on Friday the 26th, in the Public School basement at 8 p.m. Turn out, Monday, February 5th is nomination day and election day will be held on Monday, February 12th.

AROUND THE TOWN

Miss Beveridge spent the week end at her home in Calgary.

Mrs. McKinney will speak at the Jutland schoolhouse on Monday evening, January 22nd. Ladies will serve lunch.

Mr. C. H. Adshead, of Adshead's Garage was called to Calgary on Monday to sit in the jury on the Kelly case.

Dance at Elkton schoolhouse on Friday, January 19th. Fine music and a good supper. Ladies will bring cakes.

Mrs. J. Bellamy, of Salmon Arm B. C. who has been visiting with friends and relatives in the district, returned to her home this week.

Mr. Walter Leslie, a former resident of this town has been visiting here for a few days. He has a son resident in North and South Dakota for some time past.

The Department of Extension is putting on a Social Service picture in the Opera House on Thursday evening, January the 26th. Watch for further particulars and programme.

Mrs. H. Corky, accountant to the Royal Bank here, has been transferred to Lethbridge. Mr. Corky will be greatly missed here both by his business and social friends.

Mr. and Mrs. C. Lowry of Moose Jaw, who came to Didsbury last week to attend the funeral of Mrs. H. E. Osmond. Mrs. Lowry's sister, returned to their home on Wednesday.

A skating party was held at the rink on Tuesday evening and a large crowd turned out to enjoy the skating while the weather held good. After the skating a lunch put up by all was much enjoyed by all.

Mr. G. Liesemer, principal of the Didsbury High School has resigned and left for Denver on Thursday night, where he is to undergo treatment for his leg which was injured some time ago. Mr. L. C. Coffey, principal of Sylvan Lake, will occupy the principalship here commencing on Thursday.

Mrs. McKinney of Clarendon are President of the W. C. T. U. will hold a special meeting on January 21st at 3 o'clock, in the Evangelical church, Didsbury, for the benefit of the W. C. T. U. It is specially requested that members be present. Mrs. McKinney will also hold a public meeting in the evening on the same date at 8 o'clock, in the Evangelical church, in the interest of prohibition. Everybody welcome.

CARD OF THANKS

Words are inadequate in code to express the sincere appreciation for the great help and fine sympathy shown to us by neighbors and other friends in the district during the recent long illness and at the death of our dearly loved wife and mother, and for the beautiful flowers sent during this time of sorrow and trouble, but we hope that this card will be accepted as the sincere thanks of H. E. Osmond and family.

Curling and Hockey Notes

The last game of hockey played by the Didsbury team at Carstairs on Monday night resulted in a win for the Carstairs team by 12-7. The game was fast throughout and considering the shape that our team is reduced to they are playing splendid hockey. Clemens in goal is starring every game. Pete Weber showing some extra speed this winter and Herb. L. Seiper is doing some very effective playing. The team is rather crippled owing to the fact of Cecil Studer being unable to play on account of a bad knee and one of the other players having left.

Carstairs has been the scene of very considerable activities during the past week and the eight old game has been played to the limit.

W. Hardy took a rink up to the Olds hospital during the first of the week but was unsuccessful in thespiel there.

On Thursday night two of the unisual rinks came down to have a friendly match with the boys and carried off the lions share of the victories. Dr. Clarke skipped against Watt and won his game while Hugget skipped to Calder. Harrison to Fox and Sinclair to Fox. After the playing the ladies club supplied a much enjoyed little supper, washed down with coffee made by our famous coffee maker, Mr. Sick. Mr. Chambers supplied the cigars.

The Mitchell Cup was again played for at Olds on Friday evening. After two very close games however, Olds held the Cup. Brusso, skipping the veteran rink against Duff, had a score of 12-12. Freeman skipping the green rink, lost to Hin-ton 17-14.

Saturday evening two rinks from Calgary made a visit to our Club and an even break resulted from the four games played. Studer lost to Pitcairn 5-1, Horsell lost to Blenk 0-0, J. Reed won from Pitcairn 13-7, and Thompson won from Crockett 14-6. After the game a small banquet was tendered to the curlers.

Receipt Stamp Tax

The receipt stamp tax which became op. rati. on January 1st is outlined in the following sections of the act covering it:

The expression "receipt" includes any note, memorandum or writing whereby any money amounting to ten dollars or upwards, or any bill of exchange or promissory note for money amounting to ten dollars or upwards is acknowledged or expressed to have been received, deposited or repaid, or demand of the amount of ten dollars or upwards is acknowledged to have been settled, satisfied or discharged, or which signifies or imports any such acknowledgement.

Continued on page 6

The "Bank" Way

It is better to have a savings account which grows through compound interest than an investment which earns only simple interest.

More large fortunes have sprung from Bank accounts than from any other source. Pin your faith to the "savings" way.

"Double your Savings; It CAN be Done."

A Greater Canada

With the closing of the year, and the dawning of a new year with all its possibilities and opportunities, it is inevitable that the thoughts of a sane and progressive people should turn to questions having to do with the further development, the prosperity, the happiness and contentment of their own land. And in taking that forward look, Canadians will surely realize that, when all other subjects have been discussed and analyzed, the one thing needed above all others, to promote the welfare of their Dominion is a largely augmented population. That is to say, the subject is, and must continue to be, a paramount issue in 1923 and succeeding years until Canada can rejoice in a population commensurate to its vast area and almost inextricable wealth of natural resources.

It makes little difference which one of the numerous problems confronting Canada as a nation is examined, in practically every instance it will be found that the problem is acute because there are so few people to handle it. The amount of taxation that has to be carried, Federally, Provincially or as municipalities or school districts, is unduly burdensome because there are too few people among whom it can be distributed. There are losses in railway operation because of the enormous mileage required in a country stretched out thousands of miles across a continent and inhabited by a mere handful of people. School houses erected and teachers employed to instruct a small group of children whereas double the number could be provided for at practically the same expense—and even these small groups have to be collected from unreasonably long distances in all too numerous cases.

The construction roads, telephones, the maintenance of postal routes and other services through districts having such scanty population that the services in question pass by miles of uncultivated lands and are consequently expensive in cost to the few who have to pay, or be denied such services.

Every quarter section or tenth section of land to be settled on means a lessening of burdens for the occupants of even other quarter section in the same district. It means the possibility of better schools, better roads, better telephone service, better post and transportation facilities. It means bringing the doctor, the dentist, the church, nearer the farm home. It means better marketing facilities in the nearby market town, better stores in which to make purchases, better selection of goods in choice stores, improved service all round.

The people of Canada can hardly fail to appreciate the worth of these things, yet for some reason or other the average man displays little or no active interest in the great national question of immigration, and such interest as the average man does display seems to find expression in the urging of objections to any and every policy that is advanced to promote the incoming of new settlers, whereas the interests of all would best be served by urging the advantages to be derived from such additions to the wealth producing power of the country.

On New Year's Day a positive announcement could be made that 100,000 new settlers would be located in the three Prairie Provinces during 1923 a degree of confidence would be given to everybody in this country, such as they have not felt for years. It would be the signal for a revival in business, which is so badly needed. Capital, labour, men of investment, women, children, all that goes into starting buildings, homes, farms and business begin to appear on the new country; manufacturing industries could get busier, relief to hundreds of men now isolated from markets. In a word, everybody now in the country would be busy in work of one kind or another in addition to the important task of settling the new immigration. Increasing unemployment, it would, repeat, create work for all.

In this fashion only can a new country be built up and become prosperous. It will never be prosperous, by merely standing still. That means not progress, but stagnation. And land is of no value; they are made valuable only through settlement and the productive activity of men. Western Canada has millions of acres of vacant lands; what it now needs is men, and men, to give these lands their rightful value.

Canada's energies throughout 1923 may well be directed to the shipment of the immigrants of the right type to the right places to this Dominion. It is not necessary that the new settlers be of any particular race. What is important is that they have health, being sound mentally, morally and physically, and a will to work. Such people will prove a valuable asset to Canada, and in Canada they will achieve success.

GASSED OVERSEAS SHELL SHOCKED and RHEUMATISM

Mr. F. M. Blaquier, Morristown, Alta., writes: "After three years service overseas I returned to Canada almost a complete wreck. I had been gassed, shell shocked, had shell shock and rheumatism, and was so nervous I could not sleep at night. I tried many medicines and doctors, but none of them did me any good, for any length of time. I had had in the Fall of 1915, my hands were so shaky I could scarcely hold anything, and it seemed as if I had a steel band passing over my hands. I was so nervous I could not sleep at night. One day I decided to try Milburn's Heart and Nerve Pills, and after had taken six boxes I began to feel better. I kept on using them and after a while I was completely relieved."

Prior to a box at all dealers of mail order receipt of price 75¢. The T. Milburn Co., Limited, Toronto, Ont.

Justice In Far North

R.C.M.P. Sergeant in Role of Coroner and Magistrate

A remarkable story of the manner in which "white man's justice" is taken to the far north is unfolded in a recent report to headquarters by Staff Sergeant Joy, of the Royal Canadian Mounted Police. Sergeant Joy has been investigating the murder of Robert James, a white trader, at Cape Crofton, the extreme northern corner of Baffin Land.

During his investigations Sergeant Joy acted in turn in his capacity of constable, coroner and magistrate. He conducted the autopsy, held an inquest, issued warrants for the arrest of three natives, brought them in, presided over the preliminary police enquiry, and conducted the three-day trial to stand trial for murder.

The last chapter of this strange story is not yet written. Next summer a judge of the supreme court will travel north and preside over His Majesty's Court in some unheard of trading post.

Appeal From Germany

Letter is Received by Dominion Command of G.W.V.A.

"But a few dollars from you would make joyful hearts and the thought of you will bring us nearer together," is the appeal contained in a letter received by the Dominion Command, Great War Veterans' Association, from the German National Association on behalf of cripples, widows and orphans of the Great War. The letter, which was written in German, was signed by Alfred Brandhorst, and was forwarded from a suburb of Berlin.

"France," he writes, "knows no limits of hatred, and a new war is at the gates, perhaps within a short time. The thought of it," he adds, "makes us shiver, we know how much misery will be brought through it."

Her Brandhorst appeals to the G.W.V.A. to "work with us towards the end of having people brought to an understanding."

Do Large Breaths Hurt? Is Your Chest Wheezy?

Proper treatment is a rigorous rub-down of the chest, neck, and some side with good old Serreline. This wonderful liniment sinks into the tissue where the pain is seated and gives in a few moments a great relief. All sense of excess goes quickly. Just try Nervilene for chest tightness, coughs, colds and soreness. It's a wonderful medicine that saves the whole family from numerous minor ills and should be in every home. Large bottles, 35¢ at all dealers.

Our grand business undoubtedly is to see that less lies dimly at a distance, but to do what clearly lies at hand—Thomas Carlyle.

THE WAY TO BE WELL

Good Health Maintained Through Rich Blood

There are many men and women who, after a few weeks, have lost some of their weight, and then they are little better than invalids, yet at other times they feel very well. This is the health instinct so to speak.

In the case of most weight and muscle loss, these teeth are usually responsible. They are the cause of stiffness and inability to face the anxieties of daily life.

As for women, loss back aches, shudders with sick headaches, and often has stabbing pains in the side. This only real health is all they require—good health and plenty of it. One way to keep the blood in good condition is to take Dr. Williams' Pink Pills. These are second to none in comfort in Canada where everyone will be told who will tell you the benefits they have had through the use of these pills.

Through the improved condition of the nerves they strengthen and tone up the nerves of worried, enfeebled men and women, and at the same time have given them a will to live, which gives them new energy.

The value of these pills in all rundown conditions is shown by the statement of Mr. Lawrence Brown, Marion, N.S., who says: "When I began taking the Dr. Williams' Pink Pills I was in a weak, bloodless, and nervous condition suffering from all the depressing symptoms that accompanied me. I had taken many medicines but it did not do me any good, and I had a family of small children, so I was much disengaged. I began taking the Dr. Williams' Pink Pill I decided to try them, and I can honestly say that I feel these pills have given me much prolonged relief. My health is much better, and we now keep the pills in the house for use of a family medicine."

You can get Dr. Williams' Pink Pills through any dealer, including me, by mail in 50 cent or one dollar boxes, \$2.50 from The Dr. Williams' Medicine Co., Brooklyn, Ont.

Expected Canada Will Save Half A Million By Postal Treaty

Ottawa.—From the operations of the new postal convention concluded between Canada and the United States, a saving of half a million dollars a year to the Canadian treasury is looked on. This will be brought about by different means of economy and reciprocal methods of handling the international traffic. The effect of this will be beneficial to the United States as well as to Canada.

On the operations for the year in the post office department, a surplus of a million dollars prepares to replace the saving of the preceding year. A saving of \$100,000 has been made in the new contract with the railways for the carriage of mails while there has been a big increase in mail traffic, which is reflected in increased revenues.

A National Wheat Week

French Government Wants Country to Grow Her Own Wheat

Paris.—A "National Wheat Week" has been organized by the Government for January 23-28 in an effort to free France from dependence upon foreign grain for bread and also to develop the colonies by encouraging them to help grow breadstuffs enough for home and colonial consumption.

Five commissions will hold public meetings at which will be outlined the best methods of sowing, rearing and harvesting for the production of wheat, better than those means as well as through improved milling.

Afterwards means will be studied of putting this collective knowledge to work through legislation, through educational propaganda in the industries affected and through patriotic appeals to the people.

Agrees to New Naval Conference

U.S. House Opposed to Any Change in Proposal

Washington.—The naval appropriation bill, carrying a request that the President negotiate with foreign powers relative to limiting construction of war craft under 10,000 tons, was passed by the House.

The bill carried a total of \$255,000,000 and provides for an enlisted naval force of \$6,000, the same as fixed last year.

There was a flurry of talk over the provisions under which the President is asked to negotiate with Great Britain, Japan, France and Italy, but in the end any effort to change the proposal was dropped in the face of overwhelming opposition to any alteration whatever.

Re-Building Rheims

Expect City Will Be Re-Constructed Within Five Years

Paris.—It is anticipated that within five years the city of Rheims will be entirely reconstructed, after the destruction caused by the Germans in the war. This year 150 houses, which were wholly or partly destroyed, have been rebuilt, and the construction of new buildings is progressing. It is stated that the future progress of Rheims will depend in a great measure on the way Germany rebuilds her obligations to France.

Captain Forces Grave Charge

San Francisco.—Capt. George MacKinnon, master of the Pacific Mail Passenger steamer Newport, has been accused formally of sailing away and leaving in peril the lumber schooner Sven when the two vessels collided near Port San Luis a few days ago. He declares, however, that the Newport, carrying passengers, was in imminent danger and was forced to leave, while the crew of the Sven was safe.

Fishermen Torpedoed at Sea

Toronto, Quebec.—A practice torpedo badly aimed during naval manoeuvres struck a small boat containing two fishermen. The projectile cut the boat nearly in two, and tossed the occupants into the sea. Neither of them was hurt.

GREAT INCREASE IN WHEAT EXPORTS

ENDING NOVEMBER REPORT SHOWS VALUE THIRTY MILLION OVER 1921

Ottawa.—Exports of Canadian wheat in November, 1922, increased 26,001,131 in value over the exports of November, 1921, according to an official report issued. Exports of Canadian wheat during November this year amounted to 55,315,972 bushels valued at \$62,117,666, as compared with 29,254,036 bushels valued at \$31,834,534 during November, 1921. Exports of wheat during November this year amounted to 2,064,818 bushels valued at \$1,222,382, as compared with 534,000 bushels valued at \$357,000 during November, 1921. Exports of oats in November this year reached 1,822,501 bushels valued at \$2,220,651, as compared with 2,554,892 bushels valued at \$1,162,119 in November, 1921.

Bacon exports advanced from 1,482,206 bushels valued at \$1,36,056 in November, 1921, to 2,367,237 bushels valued at \$1,332,134 in November, 1922.

Cadet Movement Growing

Strength Has Increased to 105,000 in Ten Years

Ottawa.—Figures made public by the Department of Militia and Defence show the cadet movement in Canada to be making great progress. Over 20,000 additional boys were enrolled during the past cadet year, which brings the total strength to 105,000 cadets, organized in 1,150 units.

There were only 11,000 cadets in Canada ten years ago and the great development in recent years is largely to the support which this movement is receiving from educational authorities in all parts of the country. Since the reopening of schools in September some 40 new units have been authorized.

Find Prehistoric Remains

Buenos Aires.—Discovery of the thick bones of a Pantagonian dino-saur, each bone weighing 200 pounds, and claimed to be the largest unearthed in any part of the world was announced by La Plata Museum. It is conjectured that when the Pantagonian dino-saur roamed the mesa forest it was at least 45 metres or about 140 feet long.

Every dollar spent in your home town is a boost for the community.

Coal Embargo Unlikely

Fuel Distributor Wants Canada and States Treated Alike

Washington.—Further renewal of the movement for a coal embargo against Canada as embodied in the resolution of Representative Heyman, Michigan, is not likely to result in an embargo being passed, according to the latest information here. The attorney for fuel distributor from the beginning has been that Canada should have the same treatment as the United States in respect to the delivery of fuel.

Mr. Heyman concedes that Canada is being favored and getting hard coal, which the United States needs. He expresses the suspicion that coal-carrying roads in the United States are taking coal into Canada and out of the United States because they get a longer haul and more money per ton freight charges.

Trappers Arrested For Murder

Sault Ste. Marie, Ont.—Two French trappers, Jules Nault and Urbain Gérin, of Michelin on the Algoma Central Railway, have been arrested on the charge of the murder of two of their countrymen, Victor Jolliet and Horace Nault, who were found last August in a hole 25 miles back from the railway near the Montreal River weighted down with boulders.

League Of Nations Asked To Settle Trouble For Indians

EXCITEMENT OVER GRENADE BOMB

MISSILE FOUND IN ASH CART NEAR BUCKINGHAM PALACE

London.—A disturbing discovery was made at the rear of Buckingham Palace when a grenade bomb was found in an ash cart which had just arrived to remove the palace refuse.

How the missile got into the ash cart is a mystery and the police examined it to see if the charge had been removed. The authorities say they attach no special importance to the find believing the grenade was thrown into the cart while it was on the way to the palace by someone who merely wished to get rid of a dangerous souvenir.

Automobile Goes Through Ice

Four Unknown Persons Drowned in St. Lawrence River

Sorel, Que.—Four unknown persons were drowned when the automobile in which they were crossing the St. Lawrence River went through the ice. They had just passed the car of E. Duhamel, of Sorel, who was crossing to Béthune. Duhamel looked round and saw a hole through the ice. There was no cry as the party disappeared. He stopped his machine and walked back to the hole. The wheel marks of the car led straight to it, but there was no sign of the missing car or its occupants.

No Increase In Rents

Grazing Lands in West Will Remain At Old Price

Ottawa.—The government will not increase the rental charged for grazing privileges on school lands in the west next year. This has been the result of the fact that there has been no material improvement in the livestock industry since the rental was decreased in 1921. The rental was formerly 10 cents per acre but it was reduced to 6 cents per acre and will remain at 6 cents for the year ending March 21, 1924.

Settle German-Polish Frontier

London.—A formal settlement has been reached regarding the German-Polish Silesian frontier under which much of the disputed Bielitz district and also the town of Bismarck and other districts become German, while Poland gets some territory near Koenigsberg and elsewhere, says dispatch to the Times from Oppeln.

New York.—Five thousand Indians who have lived near Grand River, Ont., since 1874, and who insist that they are a sovereign people, not answerable to the Canadian Government, have appealed to the League of Nations through the Dutch Government for settlement of their dispute with Canada.

Chief Deshaheh, of the Six Nations tribe, who is here on his way home from Washington, announced that he had given the argument of his people, set forth in a petition to Dr. J. B. Habrecht, Charge d'Affaires in Washington of the Netherlands, with the request that it be sent to the Dutch Government and thence to the League. He said he left similar petitions with other embassies with the request that they be submitted to the foreign governments.

Menands of the chief's party said they chose the Netherlands to bring their case before the League because Hollanders were the first white people to settle near their land. The Six nation tribes were descendants from Indians who supported Great Britain in her eighteenth century wars and who were awarded by a grant of land they now occupied. During the war, they said, they sent many young Indians abroad to fight on the side of the allies.

Five Consulates In Vladivostok Remain

Britain, U.S., Italy, Germany and Austria Not Affected

Vladivostok.—The consulates of Great Britain, the United States, Italy, Germany and Austria were not included in the edict of the Soviet Government of Vladivostok, which directed that the consulates of France, Belgium, Holland, Denmark, Sweden, Finland, Estonia, Poland, Latvia, Czechoslovakia and Georgia be closed and leave Primoria within a week.

No announcement as to the consulates of China and Japan has been made.

The Soviet Government of Vladivostok recently took over the administration of the city and surrounding territory, known as the Primoria.

Quebec Fighting Drug Evil

Government Plans Measure to Control Sales in Province

Quebec.—The great amount of drugs being used illegally in the province of Quebec, and particularly in the city of Montreal, has necessitated some action on the part of the Government and a bill will be presented by Hon. Jacob Nisell, Provincial Treasurer, providing for the control of all drugs sold or distributed in the province.

The exact nature of the measure is not at present known, but it is understood that it will call for issuance of a permit from the provincial treasurer for all those who may legally have drugs in their possession.

New Radio Record

Three Amateur Stations Picked Up in Mid-Pacific

Hartford, Conn.—All long distance records for amateur radio transmission were shattered during the trans-Atlantic tests of the American Radio Relay League when the signals of three amateur stations were picked up in mid-Pacific 7,500 nautical miles distant, by R. P. Roess, radio operator on board the SS. Easterner, it was announced at league headquarters here. The stations heard were at Washington, Denver and Aberdeen, S.D.

VIGOROUS LIQUOR
TRISECUTION

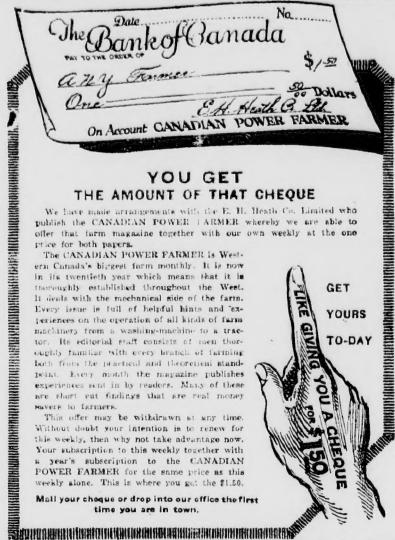

The vigorous prosecution of offenders under the Liquor Act continues. Hidson of the A. P. P. at Clarendon, secured fines amounting to \$1300, in the past week or two in the Pincher Creek, Barons and Stavely districts. Several hotel keepers and a druggist figuring heavily in the fines imposed. Officials of the Alberta Provincial Police also made a large seizure of 110 cases of liquor at Macleod. Near Olds recently.

officials of the A. P. P. co-operating with officials of the Land Revenue Department, who have charge of prosecution of stills, prosecuted three farmers with the result that heavy fines were imposed.

The Knowledge of God

In the last issue we have treated of "The natural knowledge of God. (a) Same is insufficient to attain salvation, (b) It renders man without excuse. Rom. 1, 19, 20. (c) It serves to induce man to see God." Acts 17, 26, 27.

Now, in order that we may know the true God, He has revealed Himself, i. e., He has made it known to us: (a) Who He is, and, (b) who He is, is His essence (or being). Therefore the question: What is called the revealed knowledge of God? That which is given in the written Word of God, in which God has revealed both Himself and His will. The answer expressly says: "given in the written word of God," because we are all solely and alone bound to the Scripture. Deut. 32, 11: "Thou shall read this law before all Israel in their hearing. John 5, 39: "Search the scriptures; for in them ye shall find eternal life; and they are they which testify of me." 1 Cor. 1, 21: "The world by wisdom knew not God, it is His wisdom, so it pleased God by the foolishness of preaching to save them that believe." John 1, 18; and Matt. 11, 27 1 Cor. 2, 13: "Which things also we speak not in the word which man's wisdom teacheth but which the Holy Ghost teacheth." Deut. 6, 6, 7: "And these words which I can command thee this day shall be in thine heart; and thou shall teach them diligently unto thy children." Luke 11, 28: "Blessed are they that hear the word of God and keep it."

By the revealed knowledge of God we prove in different ways that there is a God. We have innumerable testimonies in scripture stating: "there is a God," and also describing God in His essence and the will of God. We read that God appeared many a time to men to whom He showed Himself in visible form; for instance: before Adam, Noah, before Abraham ten times, before Isaac twice, before Jacob seven times before Moses often, etc.

In the first chapter of Genesis we read how God by His word made all things out of nothing. Heb. 11, 3: "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear."

The presence or existence of God are also proven in scripture by the different astonishing miracles which only God can perform. Such are: Setting the Israelites free from the Egyptian bondage, Exod. 20, 2: "I am the Lord thy God, which have brought thee out of the land of Egypt, out of the house of bondage." The leading of the children of Israel through the Red Sea, Exod. 11, 21: "And Moses stretched out his hand over the sea; and the Lord caused the sea to go back by a strong east wind that night, and made the sea dry land; and the waters were divided. And the children of Israel went into the midst of the sea upon the dry ground; and the waters were a wall unto them on their right hand, and on their left." God maintained Israel for

forty years in the desert, Deut. 20, 5. "And I (the Lord) have led you forty years in the wilderness; your clothes are not waxen old upon you, and thy shoe is not waxen old upon thy foot." God made the sun stand and the moon abated, etc., about a whole day." Yes, God even made the sun go backwards." Kings 20, 41. "And He brought the shadow ten degrees backward, by which it had gone down in the dial of Ahaz." Numerous other miracles could be mentioned.

The prophetic prediction and their wonderful fulfillment (for instance, the promise, an assurance, and that of the office of the Messiah, Jesus); that of "the preaching of the Gospel throughout the whole world" the successions of the world, judgments etc. All of this can be referred back to nothing else but God. Isaiah 41, 21-23: May this suffice as a mere introduction of the revealed knowledge of God. Here we have to stick to three principles. First, the knowledge of God which is revealed in His word, is without doubt the most reliable. Second, the beginning must be made with the saving knowledge of God which is revealed in the Gospel. Third, of God we can only judge and speak of, as what He has made known to us in His revealed word. Carefully mistaken are the theists, the doubters, and those who have false or blasphemous ideas of God. Psalm 14, 1: "The fool hath said in his heart there is no God."

(To be continued)

In Memoriam

"Say, Isaac, where did you get that stone?" said one Jew to another, pointing to the handsome diamond tie pin he was wearing. "Vell," said Isaac, "I got it from my father. When he died he left \$1000 to purchase a stone. Vell, that is the stone."

WEDNESDAY, JANUARY 17.

WHIPPS-HOUSTON

St. Luke's Church, Red Deer, was the scene of a pretty wedding on New Year's Day, when Miss Laura Grace, second daughter of Mr. and Mrs. W. G. Houston, of Red Deer, was united in marriage to Mr. Alfred G. Whippy, of Edmonton, son of Mr. and Mrs. A. Whippy, of Tonbridge, England. Rev. Gerald McComas, rector of St. Luke's, read the service. Miss Page Houston was bridegroom, while Mr. Gell Houston supported the groom.

Mr. and Mrs. Whippy left on the evening train for Edmonton where they will spend a few days, after which they will leave for their new home in Los Angeles, Cal.

Among the guests were the bride's sisters, viz., Mrs. G. R. Swingle, Didsbury, with Mr. Swingle; and Mrs. W. E. McGuirk, Hardisty, with Mr. Mc McGuirk. Mr. H. D. Houston, Banff, and Mr. S. Hepworth, of Cluny.

BURNSIDE

Left from last week.

There was a very successful skating party on Lyon's lake on Saturday evening with a concert after. Everybody reports a good time.

Wednesday afternoon there was a largely attended W. C. T. U. meeting at Mrs. Mardon's.

Saturday was day of our school meeting and everything passed off nice and peaceful. The retiring trustee, Mr. Joe Rist was again elected for a three year term.

We are glad to hear that Mrs. Miller is recovering from her recent illness.

Officials Receive Promotion

OFFICIAL announcement was made at the C. P. R. Y. C. office of the promotion of two of the company's highest officials. Mr. C. E. Ussher is created general manager of the manager and Mr. C. B. Foster who has been assistant passenger traffic manager on the eastern lines, becomes passenger traffic manager on the lines.

The new office of general passenger traffic manager is created for Mr. Ussher and for Mr. Foster.

Mr. Ussher's appointment is indicative of the

world-wide activities of the Canadian Pacific organization which stretches from the Orient to

and Australia, covering steamship services on both Atlantic and Pacific oceans as well as the rail lines.

The Canadian Pacific is one of the largest mercantile organizations in the world, and involves

traffic considerations almost as great

as the business of the company itself.

In addition, Mr. Foster has charge of

the extensive chain of hotels oper-

ated by the Canadian Pacific, the

importance of which is constantly

increasing, and which contribute

no little to the passenger traffic of

the railway.

A native of Niagara Falls, Ontario, Mr. Foster commenced his business career as clerk in an attorney's office of the Great Western Railway in 1874. In 1880 he joined the Canadian Pacific Railway as a telegraph operator, and clerk and the Chicago & Atlantic Railroad as rate

clerk in 1883.

In November, 1889, when the Canadian Pacific inaugurated the

transcontinental services he was

employed at Montreal.

Receipt Stamp Tax

gement, and whether the same is or is not signed with the name of any person.

No person shall give a receipt unless there is affixed thereto an adhesive stamp or unless he is impressed by the name of a die a stamp of the value of two cents, which is to be cancelled by the person by whom the receipt is given before he delivers it out of his hands. Cancellation shall be effected by the person who cancels the stamp writing or impressing his name or initials or across the stamp together with the true date of such cancellation.

The stamp duties imposed by his section shall not apply to the following cases:

(a) A receipt for any money deposited in any bank as defined in section twelve of this act to be accounted for to the person to whom credit the money is deposited;

(b) A receipt, or document in the nature of a receipt which is taxable under any other section of this act;

(c) An acknowledgement of a bill of exchange or promissory note for the purpose of being presented for acceptance or payment;

(d) A receipt for or upon payment of money paid for my purpose to or by His Majesty or for or out of the consolidated revenue fund of Canada for or out of the consolidated or general revenue fund of any province of Canada;

(e) A receipt endorsed or otherwise written upon or contained in any instrument liable to stamp duty and duly stamped acknowledging the receipt of the consideration money therein expressed.

As a general rule the recipient of money is not compelled by law to give a receipt so the tax may be evaded to some extent by failure to give receipts. There is, however, a provision in the act governing the receipt of money which is compulsory for a receipt to be given when requested.

There has been considerable discussion and agitation relating to the trouble and extra work the tax will involve, the application of the tax to payrolls and the question of who shall pay the tax, the payer or the payee. These objections come rather late in the day. A receipt tax has been in force over thirty years in Great Britain, and now that the people

are used to it there is no complaint about trouble or extra work involved. The matter of affixing stamps to payrolls which usually contain signatures of employees as receipts for their wages can be overcome by paying wages in cheques as a receipt. The question of who shall pay the tax is covered by the act for it says the recipient must not refuse to give a receipt, duly stamped.

Counter sales slips and cash register tickets are not taxable, provided no words implying or stating acknowledgement of the receipt or payment of money appear thereon.

Pay-rolls, signature of employee thereon being receipt for wages,—taxable, in respect of each signature.

Receipts for payment of legacies are taxable. A receipt for money in a dead or mortgage is taxable.

Receipts for payment of taxes except those given to or by the Dominion government or provincial government are taxable.

Individual freight bills and periodical statements of same acknowledging receipt of payment are taxable. Customs house brokers' receipts are taxable.

Letters forwarded by mail also post cards, acknowledging the payment of money, are regarded as letters and cards and not subject to this tax.

All insurance policies, whether fire, life, marine or casualty, wherein the payment of money is acknowledged, are taxable.

All insurance receipts, acknowledging the payment of money, are taxable.

Receipts drawn out of Canada, but not valid until counter signed in Canada are taxable.

Voucher cheques and cheques with receipts endorsed thereon when drawn upon or addressed to a bank, are not taxable as receipts.

Remitter's counterfoil, being part of the taxable express money order, is not taxable as a receipt.

—Canadian Finances

Railway News

HARDY, Alta. Work has just been completed on the C.P.R. bridge, Hardy, after a great deal of labor has been spent on it.

The railway was opened in 1868, when the railway went to Hardy, and trains ran over in 1869. The trestle is 2,714 ft. long, to 16 ft. high, and 138 ft. wide. It is built of timber and has 100 ft. of steel on the west, and the rest of the steel on the east, giving a total of 725 miles of line from the Bow River to the Canadian Pacific at Lethbridge.

OTTAWA—Ottawa has a popular citizen, Mr. F. P. Tinker, district freight agent for the Canadian Pacific Railway for several years. He has been appointed section foreman at Orangeville and has moved to that town. Mr. Tinker recently received from the C. P. R. a sum of \$25,000 from the C. P. R. representing the amount of the prize offered by the Company to the Superintendent of the Canadian Pacific in the Bow River division. Six cars sign Mr. Lee was the winner of the Bow River's prize.

Mr. C. S. Morris, of Toronto, a well-known man, has been transferred to Ottawa by Mr. Tinker's orders. Mr. Morris arrived in Ottawa on December 26th.

CHATHAM, ONT. "Speed-man" has again broken loose in the city and unless some strong steps are taken to eliminate this curse it will again be a menace in the city.

A complaint was laid to the police by the C. P. R. to the effect that a speedster had gone down on William St. at a dangerous rate and struck one of the north-side gates which had just been lowered for an incoming train and completely crushed it.

The townsmen, realizing that one of the south gates was liable to be similarly treated by the speeding motorists, raised these gates at a considerable height so that there is enough to make a passage for the speeding motorists. The number of the car was secured by one of the local section crew and turned over to the police.

The driver of the car will be charged with reckless driving," states the reporter. "It is high time that we take decisive steps to prevent any accidents which can be directly traceable to reckless driving."

Railway News

VANCOUVER—Three hours after the Queen of the Pacific Express had made a graceful landing at C. P. R. pier A, section 2, a long train with 100 railcars followed in the wake of the Queen on its way to eastern points. The magnificent ship was tied up about 4 p.m. and a battalion of workmen, consisting of 100 men, began to unload the ship. The Queen was 24 hours ahead of a similar cargo on board the President Madison, which left Yokohama the same day as the Empress of Canada.

MONTREAL—Calls at Belfast on both the eastbound and westbound trips of Canadian Pacific Rail, sailing from Montreal to Vancouver instead of only on the westbound trips as at present, and more extensive use of the Empress of Canada as a passenger ship for passengers, the innovations planned by the Canadian Pacific Steamships, Limited, for the 1923 season.

The new service on eastbound trips are an innovation of a new passenger service from Canada to Ireland. This service will be maintained by the steamships Metagama, Athabasca and Mackenzie, the last two being the sailings of the Metagama from Montreal, bound for Belfast and Liverpool, on May 3. This will be the Canadian Pacific's first service to Ireland.

WINNIPEG—With the completion of the Canadian Pacific's main line from Aeme to Drumheller. After last month, five new lines were put into operation along this line, according to Mr. Murphy, general manager.

The coal mined is of excellent quality for domestic use and should not require any change of coal storage in the great cities, Mr. Murphy states.

Exclusively the farmers of the district have been contented with the coal from the Bow River, while

the Farmers' Marketing Association

is now marketing the coal.

LETHBRIDGE—Junction of the Lethbridge division, Alberta district, Canadian Pacific Railway, was extended to the western border of the city of Lethbridge, while Lethbridge engineering department of the railway took over on December 11 the operation of the range construction and engineering department of the Canadian Pacific's Lethbridge line. The Lethbridge division now extends to the town of Lethbridge, 10 miles, half way between Lethbridge and Weyburn, 100 miles west of Lethbridge. The line connects the end of the steel on the west, and the territory of the Lethbridge division now covers 725 miles of line from the Bow River to the Canadian Pacific at Lethbridge in the interior.

OTTAWA—Joseph Lee, section foreman on the C. P. R. at Dundalk for seven or eight years, has been appointed section foreman at Orangeville and has moved to that town.

Mr. Lee recently received from the C. P. R. a sum of \$25,000 from the C. P. R. representing the amount of the prize offered by the Company to the Superintendent of the Canadian Pacific in the Bow River division. Six cars sign

SAYS TANLAC IS WORTH ITS WEIGHT IN GOLD

"Honesty, I wouldn't take one thousand dollars for the weight of Tanlac," to say nothing of what it has done for my wife and our little five-year-old son. It has been worth its weight in gold to each one of us." In the unqualified statement made a few days ago by Albert Edward Payne, a well-known carpenter of 106 Dewdney, St., Regina, Sask.

"As to my own experience, I don't hesitate to say I believe Tanlac saved my life. I had grown so rundown and weak from stomach trouble that I was losing two and three days a week, and at times more than a week on a stretch from my work. My weight dropped down to one hundred and twelve pounds and I was so miserable that life was almost unbearable.

"It was just about ready to give up when a clerk at one of the drugstores put me on Tanlac. That was the turning point with me, for I began to pick up and feel better almost immediately. It wasn't long until my stomach was in good shape and I tipped the scales at one hundred and fifty-two pounds. Tanlac also built my wife up to good health and made a happy, robust child of our little boy, and nobody could shake my faith in it. Tanlac is the family medicine at our house."

Tanlac is sold by all good druggists.

WORLD HAPPENINGS BRIEFLY TOLD

The death is announced of David Lulius, 66, noted explorer through whose pioneering the great West Australian gold field was discovered.

Interior China, with one doctor in every thousand people, has been a land of widespread misery, due largely to ignorance and superstition.

Germany's floating debt increased during the first ten days of December 125,000,000,000 marks, to a total of 962,000,000,000 marks.

A disarmament conference to deal with land and sea armaments between all Governments having diplomatic relations with the United States is proposed by Senator King.

Contra-touhon, famous Bolshevik hangman, who executed more than two thousand persons in this manner since 1929, hanged himself, according to dispatches from Moscow.

While police searched a house in Chinatown, Vancouver, for hidden drugs, a carrier pigeon flew in bearing a tube of cocaine. Two men were arrested.

A Canadian In Ireland

Men With Spirit Who Are Saving the Irish Free State

It is perhaps not generally known that among the editors of the Dublin Freeman's Journal, just oustled by Republicans to leave Ireland under pain of death, is a well-known Canadian. Mr. H. N. Moore, son of the Rev. T. Albert Moore, the prominent Methodist divine, has been managing editor of the Freeman for the past four turbulent years. His offices have been raided in turn by Sinn Feine, Black and Tan, and Republicans, the paper's presses have been destroyed, the building rifled with bullet holes, but Moore, with a threat of death constantly hanging over him, has steadfastly kept his course. When the Republicans smashed the Freeman's press, Moore and Martin Fitzgerald got out the edition on a handbill and defied their enemies. Later on an emissary of O'Malley, the most desperate of the Republicans, called at Moore's residence and placed into his wife's hands an ultimatum to the effect that his failure to publish the editor of the Freeman would be punished by certain death. The only reply was an editorial calling on a more ruthless policy toward O'Malley and his associates.

It is this spirit that is saving the Free State. Men like Cosgrave, Mulcahy, O'Higgins and their associates pursue their duties dogged by the shadow of death. That they go on, steadfast and undaunted, is the best proof that Ireland has within her the spirit that will guarantee her future life. —From the Ottawa Journal.

If Tormented With Corns, Use Good Old "Putnam's"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Extract. It acts like magic. It cuts out your corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's" 25¢ everywhere.

Did His Best

A western exuding tells of a speed maniac who ran head on into a seven-story office building and after regaining consciousness weakly inquired, "I blew my horn?" —Boston Transcript.

"Miller's" Worm Powders will clear the stomach and bowels of worms, so that a child will no more be troubled by them. The worms are so sweet to the taste and no child will object to taking them. They are non-injurious in their composition, and while they are easily digested, they are so strong that they are not taken in a sign that they are nauseating, but as the pain is prompt, and its application is extremely simple.

Mines Still In Baltic Sea

Have Caused Loss of Many Vessels Since War

All ships leaving ports on the Baltic Sea have been warned of the renewed danger of mines, many of which have been found in various parts of the sea during the last month.

The latest casualty laid to mines is the loss of the Finnish lightship Storhetta, which was blown up by a mine off Aland in September. Five of the crew of ten were lost. The loss of many vessels since the war is believed to have been caused by the mines.

The sea was reported to be mine free after German boats had been sent to clear the waters last summer. It is now alleged that this job was not well done and that there is still much danger from these floating mines.

For Frost Bites and Chilblains—common in cold climates—there is nothing better than the following: 1/2 cup shortening, 2 cups sugar, 4 cups flour, 1 wineglass brandy, 6 eggs, 1/2 pound blanched and chopped almonds.

1/2 pound English walnuts (broken in small pieces), 1 teaspoon salt, 1/2 pound stoned and chopped dates, 1 pound Sun-Maid seeded raisins, 1 pound glazed cherries, 1 teaspoon baking powder.

1/2 cup New Orleans molasses, 1/2 cup cold black coffee.

1 teaspoon grated nutmeg, 2 teaspoons powdered cinnamon, 1 teaspoon powdered cloves.

Cream shortening and sugar together, add eggs, well beaten, beat five minutes, then add coffee, soda, molasses, brandy, flour, sifted with salt and spices. Now add raw sugar, currents, dates, cherries cut in halves, and nuts. Mix carefully and turn into a greased and papered pan and bake in moderate oven for 1 hour.

Biscuits—Brands may be omitted. Sufficient for one large cake.

For Frost Bites and Chilblains—common in cold climates—there is nothing better than the following: 1/2 cup shortening, 2 cups sugar, 4 cups flour, 1 wineglass brandy, 6 eggs, 1/2 pound blanched and chopped almonds.

1/2 pound English walnuts (broken in small pieces), 1 teaspoon salt, 1/2 pound stoned and chopped dates, 1 pound Sun-Maid seeded raisins, 1 pound glazed cherries, 1 teaspoon baking powder.

1/2 cup New Orleans molasses, 1/2 cup cold black coffee.

1 teaspoon grated nutmeg, 2 teaspoons powdered cinnamon, 1 teaspoon powdered cloves.

Cream shortening and sugar together, add eggs, well beaten, beat five minutes, then add coffee, soda, molasses, brandy, flour, sifted with salt and spices. Now add raw sugar, currents, dates, cherries cut in halves, and nuts. Mix carefully and turn into a greased and papered pan and bake in moderate oven for 1 hour.

Canada's Historic Loss.

The Basilica at Quebec which for over 300 years has been an ornament of the ancient city and which was gutted by fire recently, will be rebuilt at once. In the lower right hand corner is Cardinal Laval's Palace, seen in the distance, a stone's throw from the site of the monument to Bishop Laval. The palace includes the Basilica and narrowly escaped destruction. In the upper corner is the Chateau Frontenac which stands about a block away from the Basilica and which is here pictured for the first time with the new tower.

THE fire that destroyed the ancient Basilica at Quebec on the night of December 22nd, destroyed one of Canada's ancient landmarks that had a place in the affections of many people for a long time. The fire, which had long been an ornament of the Canadian landscape, was a blow to all who had any interest in Canada's romantic past. The building itself spoke of other days. Its architecture was characteristic of Quebec City, and all who had visited the city has to some extent been struck by the fact that English, French, Catholic and Protestant dwellers in Quebec Province alike feel the loss of this historic building as a loss to the whole of Canada's romantic past. The building itself spoke of other days. Its architecture was characteristic of Quebec City, and all who had visited the city has to some extent been struck by the fact that English, French, Catholic and Protestant dwellers in Quebec Province alike feel the loss of this historic building as a loss to the whole of Canada's romantic past.

The ancient edifice dated from 1675 and occupied ground in the vicinity of the first church built in Quebec. Notre Dame de la Basilique was erected by the founder of Quebec in 1633. The first Mass in the Basilica was said on Christmas Day, 1653, but it was not until 1666 that the church was consecrated by the first Bishop of Quebec, Mgr. de Laval, and opened for most artistic on the American can

itself, and the interior decorations which had been completely renewed recently at a cost of nearly \$90,000, were particularly artistic.

Among the pictures were a Saint Paul by Carlo Maratta, and a Christ by Van Dyke. The vestments were of the finest quality, and were more magnificent than anywhere else in America. Many of them were gifts from the French king.

The church is in the style of the old Gothic. The Governor of New France, church dignitaries, high military officers, judges, and many other prominent people.

The Basilica was one of the finest edifices of its kind in the Dominion, and contained many very precious relics of the past as well as paintings of the leading masters of the French, Dutch, and Italian schools.

Many religious treasures, vestments, ornaments, and sacred vessels were also retained.

Some of the stained glass windows were among the finest in

the world. Some of the vestments had escaped the fire.
